## REMARKS

The figures of births and deaths shown in this statement for week ending the 24th December 1955 relate to 199 towns with an estimated population of 28,581 thousands. The total number of towns is 313 and their population is 40,934 thousands. Thus 64% of the total number of towns representing 70% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 32·3 and 11·14 representing birth and death rates of 17,734 and 6,268 per thousand of population respectively.

(a) States (Part A and C).—The data here relate to 164 towns with an estimated population of 23,308 thousands. Information about Ajmer, and Madras could not be included. The total number of towns is 252 and their population is 32,572 thousands. Thus 65% of the total number of towns representing 72% of the total population is covered. The number of

births and deaths recorded in these towns were 14,607 and 5,394 representing birth rates and death rates of 32·6 and 12·0 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(b) States (Part B).—The data here relate to 35 towns with an estimated population of 5,273 thousands. The total number of towns is 61 and their population is 8,362 thousands. Thus 57% of the total number of towns representing 63% of the total population is covered. The number of births and deaths recorded in these towns were 3,127 and 874 representing birth and death rates of 30·8 and 8·6 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
